### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

- In claim 9, line 1: "The method" should be changed to -- A method --.
- Claims 1-8 should be canceled. These claims are drawn to a non-elected invention that were withdrawn without traverse.
- The title should be changed to -- A method of manufacturing a catalytic converter -- to reflect the claimed invention.
- The abstract should be rewritten so that it is less than 150 words. The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited.

It is noted that the objection of the amendment filed 2/20/04 under 35 U.S.C. 132 is herein withdrawn in view of applicant's arguments on page 5, third full paragraph of the response filed 9/27/04. It is agreed that figure 1 of applicant's drawings clearly show support for the term "woven".

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
